

PiricLawnCare - Current System  
Level 1.1 DFD  
Last Updated 03/25/2020

PiricLawnCare  
Level 1.1 DFD Narrative  
Current System

Process 1.1 - Inspect Current Job Schedule

The current process for determining Job availability involves the Customer contacting PiricLawnCare with their desired Job service date and time. Piric would check his schedule, which is organized on a physical calendar in his home or in his smartphone.

Process 1.2 - Determine Availability for Requested Job

If there are no schedule conflicts, Piric note that the Customer's desired time is available.

The confirmed Job availability is used to gather needed Customer information for business purposes on process 1.3.

Process 1.3 - Gather Customer Information

Piric will gather needed Customer Information for later processes and record them in a Customer list, which is organized in a physical notebook or in his smartphone.
